

Practical Lab 8: Web Development for Media

What You Get?

You will get practical experience in:

- Creating structured webpages using HTML
- Designing media layouts
- Applying CSS styling
- Embedding multimedia content
- Implementing responsive design
- Evaluating real-world media websites

Submission Approach:

- You will create separate HTML files for each lab (Lab 8.1 – 8.4).
- You will then build a final integrated webpage (index.html + style.css).
- All your work will be kept inside one folder named: **web_media_lab**.
- At the end, you will compress (zip) the folder and upload it.

The zip folder must contain:

- lab8_1.html
- lab8_2.html
- lab8_3.html
- lab8_4.html
- index.html
- style.css
- 1 page report (PDF or Word)

Note:

- Do NOT rename files
- Ensure all files open correctly
- Use correct file paths so your webpage works

Table of Contents

Lab 8.1 – Creating Your First Media Webpage

Lab 8.2 – Structuring a News Article

Lab 8.3 – Styling a Media Webpage

Lab 8.4 – Adding Multimedia Content

Create:

index.html

style.css

Use this working code:

index.html

```
<!DOCTYPE html>
<html>
<head>
<title>Campus Media</title>
<meta name="viewport" content="width=device-width, initial-
scale=1.0">
<link rel="stylesheet" href="style.css">
</head>
<body>
<header>
<h1>Campus News</h1>
</header>
<nav>
Home | News | Events
</nav>
<article>
<p>This is a responsive media webpage.</p>

<p>This page adapts to different devices.</p>
</article>
</body>
</html>
```

style.css

```
body {
font-family: Arial;
margin: 20px;
}
h1 {
color: darkblue;
}
img {
width: 600px;
}
@media (max-width:600px) {
img{
width:100%;
}
body{
background-color:lightgray;
}
}
```

Practical Lab Instruction – What to do?

- Open webpage
- Resize browser
- observe changes

What You Will Learn:

- responsive design

Deliverables:

index.html

style.css

Student Tasks

Test in mobile view.

Expected Discussion on the Lab:

- mobile media usage

Practical Lab Reflection Questions:

1. Why is responsive design important?
2. How do devices affect media consumption?

Lab 8.6: Media Website Analysis

Overview

Analyze a real media website.

Focus:

Critical evaluation

Topic Anchors:

- layout
- navigation
- multimedia

Learning Outcomes:

Understand professional web design.

Lab 8.6 Goal:

Analyze media websites.

Practical Lab Question:

How do real media websites present content?

Practical Lab Guide – How to do It?

Visit:

- BBC News
- CNN
- Al Jazeera

Practical Lab Instruction – What to do?

Write 5 observations.

What You Will Learn:

- media website structure

Deliverables:

1-page report

Student Tasks

Evaluate strengths and weaknesses.

Expected Discussion on the Lab:

- usability and engagement

Practical Lab Reflection Questions:

1. What makes a media website effective?
2. How does design affect engagement?
